POWER AND BIG CAPACITY

The capacity of your vacuum cleaners' bin will essentially determine how often you'll need to empty it. If you have a large house and you don't want to be going back and forth to the bin, it's worth investing in a vacuum cleaner with a bigger capacity.

HEPA FILTER FOR ULTIMATE HYGIENE

High efficiency particulate air filter (HEPA) for use in home, medical facilities, automobiles, aircrafts to eliminate bacteria. The HEPA filtration system is great choice for allergy sufferers and asthmatics. The dust chamber has also been treated with silver ion technology, helping to prevent bacterial growth and giving peace of mind.

ALL FLOORS CLEANING

Carpet, parquet and floor nozzle + 2in1 dusting brush / crevice tool

Breeze is compact and has a handy 2in1 tool stored neatly on-board. It's carry handle makes it easy for you to move between room and up and down stairs. It has a 5-meter cord and a 1.5-meter hose for extra reach cleaning, making those hard to reach spots, not so hard to reach.

Once you have finished vacuuming the foot operated cord, rewind makes it effortless to tidy away and place in to storage.
